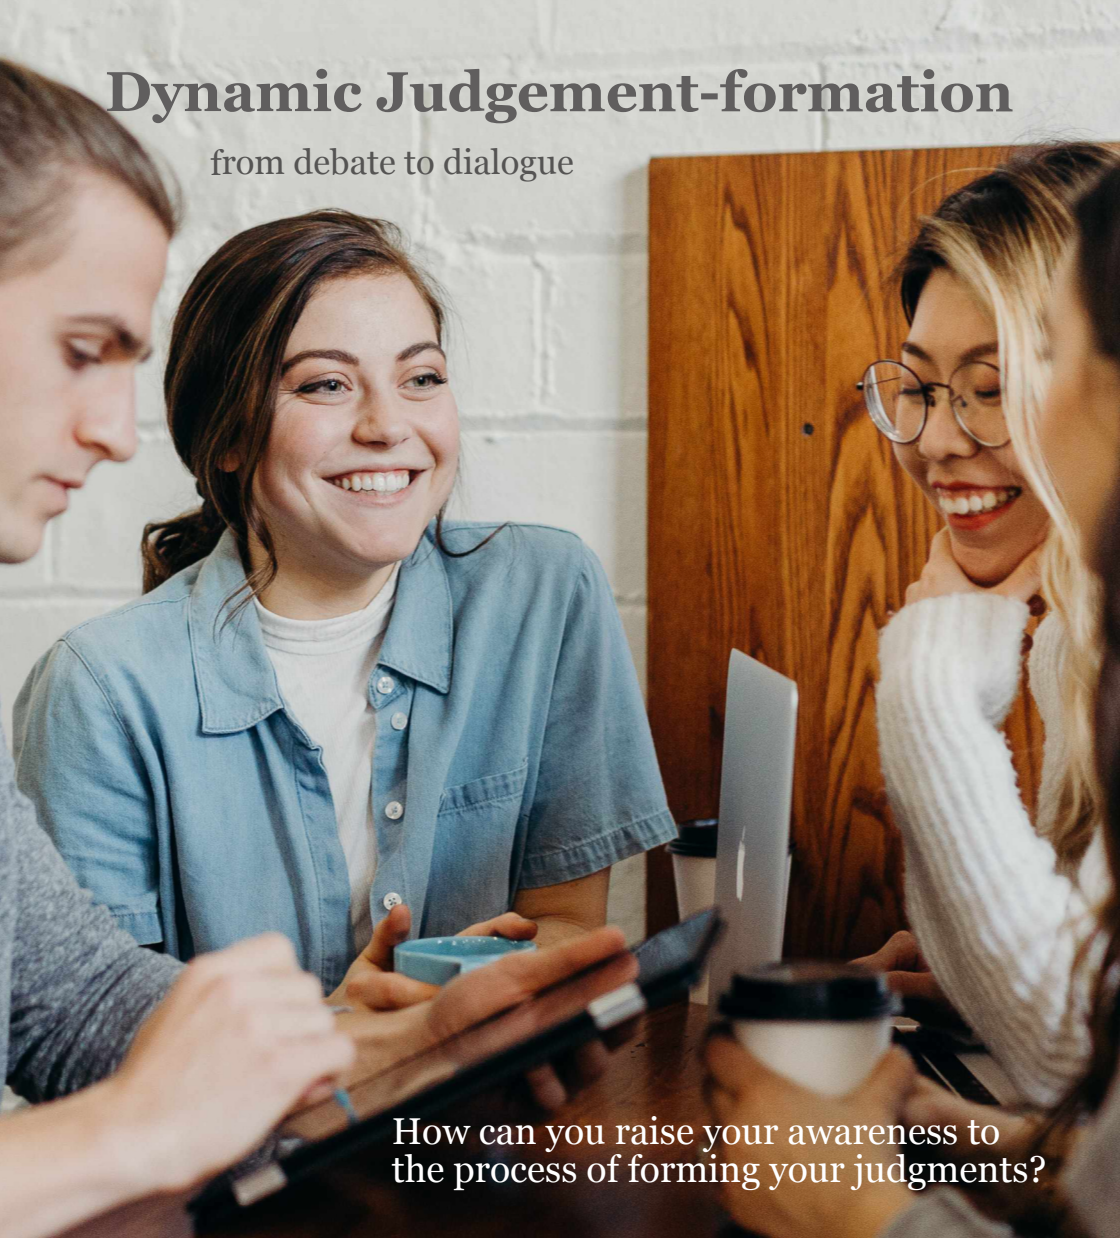
Dynamic Judgement-formation

from debate to dialogue



How can you raise your awareness to
the process of forming your judgments?

Dialoog®

Why and how can you raise your awareness to the process of forming your judgments?

Today's world has emerged from our past judgments. Any development to be initiated depends on the diligence of our judgments now.

All frames of reference seem to fall away and we look for other sources to form our judgments from.

Increased individualism versus increased global interdependence require proper and conscious judgment processes.

Online
7 meetings
5 PM - 7PM CET
Zoom
